National identity Number: 8910155851084

I am an efficient and professional fullstack developer with knowledge and experience in creating applications with the MEAN stack . I am also efficient in PHP and MySQL. I enjoy solving problems and learning new skills. I'm an effective communicator and can easily work with diverse individuals from different a abckgrounds. I am a team player who enjoys adding value to everything he does.

Willing to relocate: Anywhere

Work Experience

Digital Media Publisher

The Church of Jesus Christ of Latter-day Saints - Johannesburg, Gauteng

November 2021 to Present

I design and edit web pages. I also publish content on internal cms portals, internal sharepoint sites and social media channels.

Media Graphic Designer & Web Developer

Mediafrika - Pinetown, KwaZulu-Natal

November 2018 to June 2021

I designed visual content for social media, advertisements, and branding. I developed websites using html5, CSS, SASS, javascript, MySQL, and PHP or designed websites using WordPress. I helped manage some WordPress installations as well as assisted with error troubleshooting and site migrations. I assisted with domain registrations, transfers, and assignments. I assisted with the creation of new Cpanel webmail accounts, setting up Html email signatures, and setting up emails on different email clients.

Web Designer

The Resolve - Durban, KwaZulu-Natal

July 2016 to October 2018

I developed websites and carried out all graphic design work. I managed email marketing efforts. I ran paid advertisements on Social media, search engines, and display networks. I monitored analytics reports and optimized marketing efforts.
